

SANBORN REGIONAL SCHOOL DISTRICT

SRSD File: EBBA

PREVENTION OF DISEASE AND INFECTION TRANSMISSION

Statement of Purpose:

The purpose of this policy is to set forth the expectations of the Sanborn Regional School Board with regard to prevention and control of transmission of infectious disease.

Statement of Policy:

The Superintendent of Schools will be responsible for education on the techniques for preventing the spread of communicable and infectious diseases.

Education on prevention and control of infectious disease transmission will be provided yearly to all employees and students. The Superintendent will communicate with the Department of Health when appropriate to report communicable disease/infectious diseases. He/She will also communicate with school employees and school community when necessary about disease exposure.
